

Taking Pride in Our School

Directions: *Please take out a blank sheet of paper. Put your name and date at the top of the paper. Please respond to the following question. Your response will remain confidential.*

This school year there has been an ongoing issue with some students disrespecting the 6th grade restrooms. There has been some students scraping paint off the restroom stalls, writing on the walls, and flushing objects down the toilets that clog the toilets (i.e. tennis ball).

We believe the majority of our students are very honest and are upset with the vandalism in the restrooms. Therefore, we are asking all students in the 6th grade to help us catch the students who are disrespecting our school. We are also giving students who have participated in the vandalism an opportunity to admit their part and do community service instead of facing OSS and potential vandalism charges.

Question:

1. **Have you ever seen someone this year disrespect the 6th grade restrooms** (*scraping paint from the restroom stalls, drawing on the restroom stalls, or flushing inappropriate objects down the toilet*)?
 - **If so, who have you seen do this?**
 - **When did they do it?** (*Be as specific as possible- if there were witnesses, please provide their names*).

2. **Have you heard anyone talk about disrespecting the 6th grade restrooms** (*scraping paint from the restroom stalls, drawing on the restroom stalls, or flushing inappropriate objects down the toilet*)?
 - **If so, who have you seen do this?**
 - **When did they do it?** (*Be as specific as possible. If there were witnesses, please provide their names*).

We appreciate your help in this matter!
