

Record Sheet 4-A

Name: _____

Date: _____

Aquarium Observations

Record today's observations of your aquarium. Use a hand lens to observe closely. Then, record what you see as accurately and completely as you can.

1. Record observations on your aquarium plants and algae below. Note any changes that have occurred since the last time you observed.

Table 1

	Observations	What Has Changed?
Elodea		
Duckweed		
Algae
