

WEATHERCAST GUIDELINES

_____ Name _____

Due: _____

Over the last few weeks, we've learned about forecasting weather. Your assigned group of 3 will create a weathercast and present it using Glogster.

1. Pick a specific day of the year to make a forecast for Nashville.
2. Using the information you've learned develop a forecast using:
 - a. Past weather data for that time of year. (www.weather.com)
3. Include:
 - a. Map
 - i. Isotherms
 - ii. Isobars
 - iii. Draw on a map and import it into your final weathercast.
 - b. Forecast
 - i. 7-day outlook
 - ii. Weather fronts
 - iii. Sky conditions
 - c. Current Conditions
 - i. Temperature
 - ii. Barometric pressure
 - iii. Wind speed and direction
 - iv. Amount of precipitation

After you have gathered the weather information, create a weathercast with your group members. Share responsibilities with every member of your group. This project will be completed during class.

Grading Scale:

- Weather Cast
 - Maps (15 pts)
 - Forecast (20 pts)
 - Current Conditions (20 pts)
- Creativity of Glogster (5 pts)
- Presentation (15 pts)
- Participation (20 pts)
- Completed by due date (5 pts)
